NEITHAL PRINCE

DATA ANALYST

neithalprince@gmail.com|+91 8289977343| linkedin.com/in/neithal-prince-74478a261 | Kollam ,Kerala, India

Profile

Computer Science Engineering graduate with hands-on experience in data analysis, SQL, Python, Excel, Power BI, and ETL. Skilled in data cleaning, EDA, visualization, and extracting insights using MySQL, Pandas, NumPy, Matplotlib, and Power Query. Also experienced in full-stack development, with strong problem-solving skills and an interest in using data to support business decisions.

Experience

SDE Intern | Algon Solutions Pvt. Ltd., Kochi **June2025 – July 2025**

Contributed to web application development and debugging using JavaScript during a one-month internship.

Deepened expertise in advanced JavaScript, dynamic rendering concepts, and underlying web application architecture, including state/session management using cookies.

Worked with Git for version control, code management, and collaborative development workflows.

Skills

Programming & Databases: Python, SQL, MySQL

Business Intelligence & Excel: Power BI, Power Query, Power Pivot, DAX, MS Excel, Dashboard Creation, Data Visualization

Data Analytics: Data Cleaning, EDA, Data Analysis, Pandas, NumPy

Soft Skills: Analytical Thinking, Problem Solving, Critical Thinking, Communication, Teamwork

Education

UKF College of Engineering, Paripally, Kollam **2022-2026**

B.Tech in Computer Science and Engineering

CGPA :7.25

Professional Training

Data Analytics with Power Bi | Luminar Technolab , Kochi **2026**

Learned SQL, Python, Excel, Power BI, data cleaning, exploratory data analysis, ETL, and data visualization. Gained practical experience analyzing structured datasets and extracting meaningful insights using MySQL, Pandas, NumPy, Matplotlib, and Power BI.

Projects

Amazon Sales & E-Commerce Data Analysis (2026)

Analyzed Amazon e-commerce sales data using MySQL to identify customer, product, revenue, and sales trends. Designed relational Customers and Orders tables and solved 20+ business problems using joins, aggregations, subqueries, window functions, and stored procedures. Generated actionable business insights through SQL-based data analysis and reporting.

Retail Sales Analytics Dashboard (2026)

Developed an interactive Power BI dashboard to analyze retail sales performance across countries, product categories, and customer segments. Created DAX measures to track key performance indicators (KPIs), including total sales, previous-year sales, year-over-year (YoY) growth, and average sales per order. Designed interactive visualizations, including sales comparison charts, country-wise sales treemaps, category-wise sales charts, customer segment donut charts, and yearly top-selling product ribbon charts. Implemented slicers and navigation buttons to enable dynamic filtering and intuitive exploration of sales trends, profitability, and customer demographics

AWARDS & CERTIFICATIONS

First Prize, Best Project - TinkerHub HerHack Hackathon 3.0 2024

Anita.B Grace Hopper Celebration India 2025 - Certificate of Participation 2025
